FILTER GRID ASSEMBLY BROCHURE

Backed by a
1 Year
Manufacturer's
Warranty

Engineered for
Demanding
Applications

Fast Installation
with Self Drilling
Screws

Cost Effective
Modular Design

OVERVIEW:

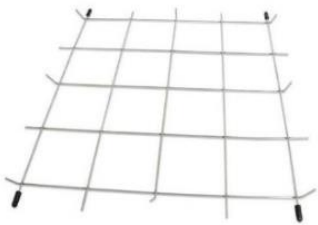

- Our filter grid assemblies are ideal for customers looking to build or modify a paint booth.
- The universal design securely holds filters in place for both intake and exhaust applications.
- Designed to accept standard 20" or 24" filters and holding grids (Sold Separately).
- Available in a wide range of sizes.
- Fasten multiple filter grid assemblies together to make any size you may need.
- Custom sizes are also available.

CONSTRUCTION:

- Gridwork is constructed from heavy duty 18 ga galvanized steel.
- Includes all the hardware needed for assembly.
- Alignment holes make assembly simple.

ACCESSORIES:

- Snap in filter holding grids
- Fiberglass paint arrestor pads
- Series 55 intake panel filters

Snap In Filter Holding Grid

Fiberglass Paint Arrestor

Intake Panel Filter

STANDARD SIZES:

- Standard sizes available in increments of 20" up to 120".
- Fasten multiple filter grid assemblies together to make larger sizes.
- Custom sizes are also available.
