Manufacturer's
Warranty

Engineered for
Demanding
Applications

Easy Nut and Bolt
Assembly

Cost Effective Modular
and Expandable Design

STANDARD CONSTRUCTION:

- Modular design with pre-punched panels for nut and bolt assembly
- Heavy Duty 18 Ga G90 Galvanized Steel Panels

OPTIONAL CONSTRUCTION:

- White powder coated panels
- Double wall insulated panels
- Integrated spill containment system
- Pressurized intake air

CUSTOMIZATION:

- Additional access door and walkway for connecting mixing room and paint booth

TUBE AXIAL FAN:

- Non sparking polypropylene blade with aluminum hub
- Totally Enclosed Fan Cooled or TEFC motor mounted outside of the air stream
- Dual heavy-duty pillow block bearings
- Durable powder coated finish

FILTRATION:

- Filtered intake and exhaust

CONTROLS:

- Manometer
 - Measures pressure differential and indicates when to change filters
- Optional motor starter or VFD for fan operation
- Optional full control package

LIGHTING:

- Ordinary, hazardous, and explosion proof options
- Fluorescent and LED options

COMPLIANCE:

- Meets or exceeds NFPA 33 and OSHA 1910 requirements.

ACCESSORIES:

- Shelving and work surfaces
- Ductwork

NAMING CONVENTION:

MR – 120 – 084 – 084 – 1

TYPE

- Mixing Room

WIDTH (In)

- Working Width

HEIGHT (In)

- Working Height

DEPTH (In)

- Working Depth

PHASE

- 1 or 3
