CEILING MOUNTED VIBRATION ISOLATOR KIT BROCHURE

OVERVIEW:

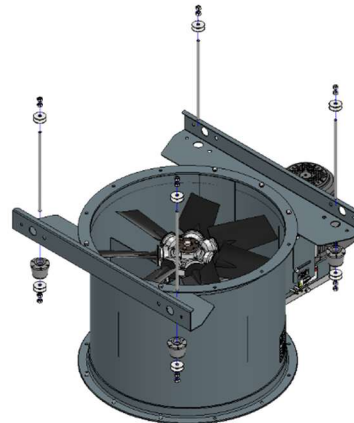

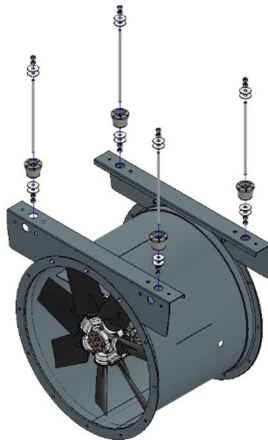

- Our Ceiling Mounted Vibration Isolator Kit includes a set of 4 vibration isolators. The kit provides effective vibration control when suspending fans and ductwork. Use threaded rod and our [Axial Fan Bracket Kit](#) to suspend our [Tube Axial Fans](#). Our vibration isolator kits are available with weight ratings of 300 lbs or 680 lbs. Use our 300 lb kit for suspending tube axial fans up to and including 30" diameter. Use our 680 lb kit for fans larger than 30" diameter

CONSTRUCTION:

- One-piece molded neoprene construction.

MOUNTING OPTIONS:

- Tube axial fans can be suspended in the vertical or horizontal orientation using our [Axial Fan Bracket Kit](#).
