VIBRATION ISOLATOR KIT BROCHURE

OVERVIEW:

- Our RD vibration isolators are color coded to identify capacity, and have non-skid ribs on the bottom load surfaces. Each isolator incorporates two bolt-down holes on the bottom load surface and a tapped steel load top plate for attachment to the supported equipment.

CONSTRUCTION:

- One-piece molded neoprene mounts with encapsulated metal inserts.
- Mounting hardware includes concrete anchors, and a 5/16" spin lock bolt.

STANDARD SIZES:

Vibration Isolator Kit, Floor Mount (VFK)		
Part No:	Isolator Weight Capacity (lb):	Kit Weight Capacity (lb):
VFK280	70	280
VFK680	170	680
