

COOK MFG

OVERVIEW:

- Our vibration isolators are color coded to identify capacity, and have non-skid ribs on the bottom load surfaces. Each isolator incorporates two bolt-down holes on the bottom load surface and a tapped steel load top plate for attachment to the supported equipment.

CONSTRUCTION:

- One-piece molded neoprene mounts with encapsulated metal inserts.

STANDARD SIZES:

Vibration Isolator, Floor Mount	
Part No:	Isolator Weight Capacity (lb):
HW0345	70
HW0346	170
