VIBRATION ISOLATOR KIT BROCHURE

OVERVIEW:

- Wall mounted vibration isolators are color coded to identify capacity, and have encapsulated metal inserts for a fail-safe design. Each isolator incorporates two bolt-down holes on and one tapped steel load top plate for attachment to the supported equipment

CONSTRUCTION:

- One-piece molded neoprene mounts with encapsulated metal inserts.
- Mounting hardware includes concrete anchors, and a 1/2" hex head bolt.

STANDARD SIZES:

Vibration Isolator Kit, Wall Mount (VWK)		
Part No:	Isolator Weight Capacity (lb):	Kit Weight Capacity (lb):
VWK340	85	340
VWK640	160	640
