

FINAL FILTER ASSEMBLY SPEC SHEET

COOK MFG

MODEL:

- FFA

DESCRIPTION:

- The final filter assembly is the last stage in a three-stage Filtration process for a powder coating booth. The final filter assembly allows the exhausted air to be recirculated inside the building rather than being exhausted outside.

CONSTRUCTION:

- Housing constructed from 18 GA G90 galvanized steel.
- MERV 15 Mini pleat filters.
 - Part No: 90-20204

FINISH:

- Housing: Natural galvanized.

COMPLIANCE:

- Manufactured to meet or exceed NFPA and OSHA regulations.
