

COOK MFG

DUCT WITH ACCESS DOOR SPEC SHEET

MODEL:

- DRA

DESCRIPTION:

- Exhaust ductwork used for ventilation. Common applications include intake and exhaust air along with fume extraction. Used to either exhaust through the roof or exterior wall.
- This ductwork is ideal for maintenance.
- The draw tight latches and neoprene gasket provides an airtight seal against the ductwork.

CONSTRUCTION:

- Housing: 22 GA G90 galvanized steel up to 30" diameter.
- Housing: 18 GA G90 galvanized steel 31" to 66" diameter.
- Flanges: 1/8" to 3/16" thick rolled mild steel angle.

FINISH:

- Housing: Natural Galvanized.
- Flanges: RAL 7031.

COMPLIANCE:

- All ductwork is manufactured to meet NFPA and OSHA regulations.
