INTAKE SHUTTER SPEC SHEET

Model: WSS

Description:

- Our intake shutters are ideal for supply fresh from an exterior wall. They can be installed vertically or horizontally. The shutter opens automatically when airflow is present. For models 24" and larger, a spring return system closes the shutter once airflow has stopped. Heavy duty aluminum frame with aluminum blades. Intake shutters are rated for a maximum air velocity of 2250 FPM.

Construction:

- Felt tipped louvres close when not in use.

Finish:

- Housing: Natural Galvanized

Compliance:

- All ductwork is manufactured to meet NFPA and OSHA regulations
